

# Allmand™

## TLB Series

## Full Line

TLB 220

TLB 325

TLB 425

TLB 535

TLB 6235

All **Allmand TLB™** models provide a durable design, a dedication to safety, exceptional power and outstanding performance.

**Strong Past. Dynamic Future.**

*Reliability, performance,  
and integrity since 1938*

## TLB™ Models

**TLB 535**

- Isuzu 35 hp diesel engine
- Allmand ESL 10 ft. backhoe
- Off-highway planetary rear axle
- 1/2 yd. loader bucket
- Servo controlled hydrostatic drive
- Backhoe buckets available from 10 in. to 36 in. sizes

**TLB 425**

- Kubota 25 hp diesel engine
- Allmand ESL 8.5 ft. backhoe
- Off-highway planetary rear axle
- 1/2 yd. loader bucket
- Servo controlled hydrostatic drive
- Backhoe buckets available from 10 in. to 36 in. sizes

**TLB 6235**

- Isuzu 35 hp diesel engine
- Allmand ESL 10 ft. backhoe
- Off-highway planetary axles
- Full-time 4x4 drive system
- Servo controlled hydrostatic drive
- Loader design provides higher reach and greater dump angle

**TLB 325**

- Kohler 25 hp gasoline engine
- Allmand ESL 8.5 ft. backhoe
- Limited slip differential
- 1/2 yd. loader bucket
- Hydrostatic drive
- Backhoe buckets available from 10 in. to 36 in. sizes

**TLB 220**

- Kohler 20 hp gasoline engine
- 7.5 ft. backhoe
- Limited slip differential
- 1/3 yd. loader bucket
- Hydrostatic drive
- Backhoe buckets available from 9 in. to 36 in. sizes

### OPTIONS:

To make the Allmand TLB an even better fit, we offer a variety of options to tailor the machine for your particular application. Call our customer service team today at **1-800-562-1373** or consult a specification sheet on the web for available options.

## Which Allmand TLB™ is right for your needs?

Feature	Benefit	TLB-220	TLB-325	TLB-425	TLB-535	TLB-6235
Extended Service Life (ESL) design	Provides high performance and longer life		●	●	●	●
Excellent serviceability	Reduces maintenance and repair costs	●	●	●	●	●
20 hp 2-cylinder gasoline engine	Choices of Robin or Kohler engines assures dependability and support	●				
25 hp 2-cylinder gasoline engine	Kohler 25 hp engine provides power for bigger jobs		●			
22.5 hp 3-cylinder diesel engine	Kubota 905 diesel engine provides diesel power and durability in a smaller package					
25 hp 3-cylinder diesel engine	Kubota 1105 25 hp diesel engine provides power and durability			●		
35 hp 3-cylinder diesel engine	Isuzu 3CD1 35 hp diesel engine has the power you need for bigger jobs				●	●
Hydrostatic drive equipped with cast iron hydrostat	Experienced and inexperienced operators alike will find this a very easy to understand and comfortable machine to operate. Cast iron hydrostat provides durability and reduces noise	●	●	●	●	●
Servo controlled hydrostat	Zero creep, low noise and light control forces			●	●	●
Full-Time 4x4 drive system	Keeps you going in even toughest of traction-limited conditions					●
Standard 4 post R.O.P.S.	Certified operator protection in either tractor seat or backhoe seat	●	●	●	●	●
Standard front loader valve with float control	Smooth operation loading and dumping along with well controlled back-filling and grading operations	●	●	●	●	●
High capacity poly fuel tank	Means longer run time and no corrosion	●	●	●	●	●
Standard wide tire and wheel package	Provides superior flotation and traction in all operating conditions	●	●	●	●	●
Loader buckets with square edges and level indicator in 1/3 yd. capacity	Gives the operator clear, unobstructed view of the loader bucket's position at all times	●	●			
Loader buckets with square edges and level indicator in 1/2 yd. capacity	Larger load capacity gives operator more capacity for larger jobs. Gives the operator clear view of the loader bucket's position at all times			●	●	●
Large, roomy operator station with an elevated backhoe seating position	Offers a very comfortable layout with a commanding view of the work-zone	●	●	●	●	●
High-capacity hydraulic oil cooler	Cooler oil means longer lasting components and more performance over extended operating periods		●	●	●	●
Load sensing hydraulic power steering	Consumes no engine horsepower unless steering wheel is being turned	●	●	●	●	●
Axial piston drive motor	Improved performance, efficiency, and durability			●	●	●
180 degree backhoe swing, all models	Allows close-quarter digging, simplifies dirt disposal	●	●	●	●	●
Dual hydraulic swing cylinders	Provides strong backhoe swing torque for easy back filling	●	●	●	●	●
Allmand ESL Backhoe Design in 8.5 ft. model	Offers owners, operators and service personnel unparalleled performance, serviceability and reliability		●	●		
Allmand ESL Backhoe Design in 10 ft. model	Offers ESL performance, serviceability and reliability in a larger size for even more productivity				●	●
Easy access service ports on ESL Backhoes	Outstanding serviceability and reduced maintenance costs		●	●	●	●
Internally cushioned swing, boom and stabilizer cylinders on ESL Backhoes	Provides a safer work environment and reduces operator fatigue		●	●	●	●
Sealed joints with oversized polished pins, composite bearings and urethane lip seals in every working joint on ESL Backhoes	No metal to metal contact, the seals hold the grease in and the water and dirt out of each joint. Also, more strength and extended service life for "like-new" performance for years to come		●	●	●	●
Exclusive heavy duty boom lock on ESL Backhoes	Easily engaged and disengaged from the backhoe operator's seat		●	●	●	●
Neutral start switch	Adds significant safety to machine operation as it will not allow starter motor to engage while unit is in gear	●	●	●	●	●
Limited-slip differential	Improves traction for all types of terrain and working conditions	●	●	●	●	●
Off-highway planetary limited slip axle	Provides more torque, outstanding performance and durability			●	●	●
Strategically positioned park brake lever	Prevents operator from driving tractor with park brake engaged	●	●	●	●	●

Available on the TLB-325, TLB-425 ESL, TLB-535 ESL, and TLB-6235 ESL, the *ESL* design insures extended service life by incorporating a variety of innovative features:

### ESL

Simple joystick controls provide smooth, precise operation and the standard wrist support enhances operator comfort.

### ESL

Roomy operator station features dual operator seats that provide ample legroom and maximum visibility of the digging area.

### ESL

Smooth, dual-cylinder 180-degree cushioned swing reduces operator fatigue.

### ESL

Easy-access service ports simplify maintenance.

### ESL

Oversized, precision-ground pins with composite bearings and urethane lip seals in ALL working joints eliminate metal to metal contact and extend service life.

Boom lock detail

## ADDITIONAL *ESL* FEATURES:

Exclusive boom lock can be easily engaged and disengaged from the backhoe operator's seat.

Innovative pin, composite bearing, and urethane lip seal design provides exceptional strength while retaining grease, eliminating dirt and increasing the time between service intervals.

Allmand *ESL* Backhoes available in 8.5 ft. and 10 ft. models

Variety of optional backhoe buckets ranging from 9 to 36 inches lets you choose the right bucket for any application.

Enclosed backhoe valve features easy-action joystick controls for maximum digging sensitivity.

Reliability, performance,  
and integrity since 1938.
